The following is a quotation of the appropriate paragraphs of 35 U.S.C. 102 that form the basis for the rejections under this section made in this Office action:

A person shall be entitled to a patent unless –

(b) the invention was patented or described in a printed publication in this or a foreign country or in public use or on sale in this country, more than one year prior to the date of application for patent in the United States.

Claims 1-24 are rejected under 35 U.S.C. 102(b) as being anticipated by Jung.

See Paper No. 9, paragraph 2.

Applicant's arguments filed 7-1-03 have been fully considered but they are not persuasive. The applicant argues that the reference doesn't anticipate the invention because the preferred embodiment on page 3 of Jung doesn't disclose an acetoacetate ester of a C1-C4 alcohol. If R1 and R3 and C1-3, the acetoacetate ester has to be an ester of a C1-C3 alcohol. The applicant argues that citing Jung's examples isn't proper because none of the examples are directed to complexes made from C1-4 alcohol esters of acetoacetate. The examples show the amounts of acetoacetate ester, and page 3 teaches the preferred ester to be used.

**THIS ACTION IS MADE FINAL.** Applicant is reminded of the extension of time policy as set forth in 37 CFR 1.136(a).

A shortened statutory period for reply to this final action is set to expire **THREE MONTHS** from the mailing date of this action. In the event a first reply is filed within **TWO MONTHS** of the mailing date of this final action and the advisory action is not mailed until after the end of the **THREE-MONTH** shortened statutory period, then the shortened statutory period will expire on the date the advisory action is mailed, and any extension fee pursuant to 37 CFR 1.136(a) will be calculated from the mailing date of

the advisory action. In no event, however, will the statutory period for reply expire later than SIX MONTHS from the mailing date of this final action.
